EVERYONE HOME DC

Our Path Forward

2027 – 2029 STRATEGIC ROADMAP

Building on what we've learned.
Looking toward what's possible.

What does Everyone Home DC need to sustain and strengthen its work in the years ahead?

That question guided months of research, reflection, and conversation about what we've learned, where we see opportunities, and what it will take to strengthen our work.

We're excited to share our **2027–2029 Strategic Roadmap**, adopted by our Board of Directors in July 2026. Its five priorities reflect a shared direction: strengthening the programs at the heart of our mission, exploring new approaches to housing stability, and investing in the people, partnerships, and resources that make our work possible.

Five Priorities. One Shared Direction.

01 Strengthening Our Core Programs

Investing in the quality, consistency, and effectiveness of our core programs, while strengthening partnerships and finding new ways to support housing stability.

02 Advancing Housing Problem Solving

Building our capacity for Housing Problem Solving—an approach that brings together creative solutions, community partnerships, and flexible resources to help individuals and families navigate housing challenges.

03 Building a Sustainable Future

Growing and diversifying our funding, strengthening relationships with supporters, and investing in the financial flexibility needed to sustain our work over time.

04 Investing in Our People and Organization

Supporting our staff, developing leadership, and strengthening the systems and infrastructure that allow our organization to do its best work.

05 Making Room for More Voices

Creating meaningful opportunities for people with lived experience of homelessness and housing insecurity to shape programs, influence decisions, and contribute to the organization's direction.

WHAT COMES NEXT

Putting our priorities into practice.

Developing the Roadmap was an important first step. Now comes the work of putting it into practice—translating our priorities into action, learning from what works, and adapting as the needs of our community evolve.

Here's what that will look like in the years ahead.

Put new and expanded services into action

Launch Supportive Services for Veteran Families, strengthen existing programs, and build partnerships that help us respond to changing community needs.

Build our Housing Problem Solving approach

Build our Housing Problem Solving practice through staff learning, community partnerships, and flexible resources that help individuals and families navigate housing challenges.

Strengthen the organization behind the work

Invest in staff development, leadership continuity, diversified funding, and the systems needed to sustain strong, effective programs.

Bring lived experience into decision-making

Develop meaningful ways for people who have experienced homelessness or housing insecurity to help shape our programs and organizational decisions.

Moving Forward, Together

The challenges facing our community are complex, and no single organization can address them alone. Our path forward will be shaped by the individuals and families we work alongside, the commitment of our staff, and the supporters and partners who make this work possible. We're excited about what's ahead—and grateful to have you with us.

Housing is our starting point.
Seeing people thrive is our finish line.
